Hi Mike and Sam,

I've updated the website with the information I have from the news release and the situation when I left last night. I have sent everything to Karen Reshkin but haven't been able to touch base with her or get changes from her. Everything is still private as of right now

(response.epa.gov/USSteelHexavalentChrome). There's a couple photos and I asked START to take more today. Please send me any comments/changes. I don't think Andy or Tom has reviewed the write up on the site yet.

I have an appointment with a resident at 11 that I can't miss. I can make changes when I get back or START/Andy/Tom all have editing rights.

Thank you,

Kristina Behnke
